EDUCATION

North Carolina State University, Raleigh, NC
B.S. Computer Science | Minor in Accounting
GPA: 3.3/4.0

December 2025

RELEVANT EXPERIENCE

Fidelity Investments, *Full Stack Software Engineer Intern*, Durham, NC June 2024 – August 2024

- Collaborated with a team of 7 to enhance equity research backend services powered by AWS using Angular, Node.js, and HTML/CSS
- Improved the front and backend of the site by implementing AG Grids, applying quick filters to streamline data analysis, and utilizing subscription mechanisms to trigger notifications based on real-time user interactions
- Enhanced UI testing skills by using Spectator to mock data and functions within components, ensuring reliable and efficient test coverage

CS Frontiers, *Research Assistant Volunteer*, Raleigh, NC January 2023 – June 2023

- Developed teamwork and data analysis skills by providing support to 2 PhD students to effectively conduct a research study on a group of 6 high school students
- Assisted the students with various programming tasks on NetsBlox that were assigned to them to improve their knowledge of computer science, encourage their interest in the field, and stimulate their learning
- Assessed the progression of the students' coding skills by grading their code according to predetermined criteria using Excel spreadsheets

OTHER EXPERIENCE

Plaza Del Mariachi, *Waitress*, Jacksonville, NC August 2021 – Present

- Fulfill a multitude of responsibilities including tending to guests' dining needs, communicating with kitchen personnel to ensure food quality and accuracy, following appropriate cash-handling procedures, and providing excellent service to customers
- Demonstrate knowledge of various menu items to provide guests with recommendations and accommodate complex requests and unique diets
- Adapt to high-pressure environments and situations where I wait on approximately 20 - 30 tables during peak days and hours

SKILLS

Software: Java, Swift, Node.js, Angular, C, HTML, CSS

Technologies: Jenkins, GitHub, Junit5, Excel, Spectator

Spoken Languages: Spanish, English

PROFESSIONAL AFFILIATIONS

Society of Hispanic Professional Engineers (SHPE), *Member*

Women in Computer Science (WiCS), *Member*

App Development Club (ADC), *Member*

iOS Mobile Application Development (Swift UI)

- Contributed to the development of a mobile iOS application to improve the organization of club and event meetings at North Carolina State University alongside my team of 8 members
- Designed the interface for the 'Clubs' and 'Explore' page views utilizing Swift UI and placeholder data
