EDUCATION

North Carolina State University, Raleigh, NC

December 2025

- *B.S. Computer Science | Accounting Minor*
- *GPA: 3.4/4.0*

RELEVANT EXPERIENCE

Fidelity Investments, Durham, NC

June 2024 – August 2025

Mobile Engineer Intern – Web Platform (June 2025 – August 2025)

- Refactored an Angular component to adopt a new HTML template structure, improving maintainability and aligning with updated design standards
- Migrated styling from the Helios to FDS theme across the component, resolving 10+ legacy style conflicts through manual code audits and collaboration with UX and partner teams
- Implementing a modern documentation site with Astro, replacing Confluence to deliver a faster, more user-friendly experience tailored to diverse audiences across the enterprise

Full Stack Software Engineer Intern (June 2024 – August 2024)

- Collaborated with a team of 7 to enhance equity research backend services powered by AWS using Angular, Node.js, and HTML/CSS
- Improved the front and backend of the site by implementing AG Grids, applying quick filters to streamline data analysis, and utilizing subscription mechanisms to trigger notifications based on real-time user interactions
- Enhanced UI testing skills by using Jest and Spectator to mock data and functions within components, ensuring reliable and efficient test coverage

CS Frontiers, Research Assistant Volunteer, Raleigh, NC

January 2023 – June 2023

- Developed teamwork and data analysis skills by providing support to 2 graduate students to effectively conduct a research study on a group of 6 high school students
- Assisted the high school students with various programming tasks on NetsBlox that were assigned to them to improve their knowledge of computer science, encourage their interest in the field, and stimulate their learning
- Assessed the progression of the students' coding skills by grading their code according to predetermined criteria using Excel spreadsheets

OTHER EXPERIENCE

Plaza Del Mariachi, Waitress, Jacksonville, NC

August 2021 – April 2025

- Fulfilled a multitude of responsibilities including tending to customers' dining needs, communicating with kitchen personnel to ensure food quality and accuracy, and following appropriate cash-handling procedures
- Adapted to high-pressure environments and situations where I wait on approximately 20 – 30 tables during peak days and hours

TECHNICAL SKILLS

- *Languages:* Java, SQL, Swift, C, HTML, CSS, SCSS, TypeScript
- *Frameworks & Libraries:* Angular, React, Node.js, Spectator, Astro
- *Tools:* Git, Jenkins, Microsoft Office Suite
- *Testing:* Jest, Spectator, Junit5

PROFESSIONAL AFFILIATIONS

NCSU App Development Club, iOS Apprentice, Raleigh, NC

August 2024 – April 2025

- Led a team of 4 students in building SwiftUI-based iOS applications, implementing features using native Apple frameworks such as MapKit and CoreLocation to gain hands-on experience with real-world app architecture
